

## REEDY LIPO Battery Packs **ROAR Approved!**

Utilizing state-of-the-art technology, Reedy is proud to introduce reliable and powerful 7.4V 20C LiPo battery packs designed specifically for use in R/C cars and trucks.

A unique hard case design helps protect the battery from damage. Integrated locking nubs simulate sub-c cell profiles to allow the battery to be easily installed in slotted touring car chassis. By simply flipping the battery over, perfect installation in off-road vehicles is achieved.

Reedy makes available a choice of two capacities to suit enthusiasts' application and budget requirements. Both come equipped with 14AWG silicone wire and a Tamiya® style connector. The 5000mAh Pro model comes equipped with 12AWG wire only so that the user can install his favorite plug.

*Reedy LiPo batteries offer many advantages over traditional NiMH batteries:*

- Exclusive case design helps protect the battery from damage while allowing easy installation in touring car and off-road chassis
- Up to 30% longer runtime than NiMH batteries of equal capacity
- Lighter than NiMH batteries of equal capacity
- No limit to the number of consecutive uses
- Improved cell efficiency results in less energy lost as heat and greater power output
- Battery can be charged well in advance of use with no loss in performance
- Reduced maintenance
- Longer lifespan (up to 10 times!) reduces battery costs
- Balancing connector included - no complicated wiring required!

### Specifications:

#### 3200mAh

Length: 139mm  
 Width: 46mm  
 Height: 23.1mm excluding nubs /25.1mm including nubs  
 Weight: 198g  
 Discharge: 64A continuous, 80A-128A burst  
 Passes UN T1-T8 testing

#### 5000mAh

Length: 139mm  
 Width: 46mm  
 Height: 23.1mm excluding nubs /25.1mm including nubs  
 Weight: 293g  
 Discharge: 100A continuous, 125A-175A burst  
 Passes UN T1-T8 testing
