

New Product. For Immediate Release: April 22, 2010

New V2 Threaded Shocks

Complete shock kits:

- V2 shocks are compatible with all current RTR and Factory Team shocks on B4, B4.1 , T4, T4.1, B44, and SC10.
- Bleed screw shock caps for quick and easy shock bleeding.
- Easy-to-build seal package. Simplified build uses two O-rings and one spacer.
- Threaded lower seal cap made of low-friction material and acts as a guide bushing.
- Designed to last longer between rebuilds.
- Threaded shock collars with O-rings to keep the settings secure.
- Titanium Nitride "Gold" coated shock shafts for smooth action.
- Blue aluminum shock pivot balls.
- Works with existing shock shafts, pistons, O-rings, shock ends, spring cups, and shock caps.
- Uses the #7484 V2 1:10 Shock Rebuild (enough for 4 shocks) set.

Shock body sets:

- V2 shocks are compatible with all current RTR and Factory Team shocks on B4, B4.1 , T4, T4.1, B44, and SC10.
- Easy-to-build seal package. Simplified build uses two O-rings and one spacer.
- Threaded lower seal cap made of low-friction material and acts as a guide bushing.
- Designed to last longer between rebuilds.
- Threaded shock collars with O-rings to keep the settings secure.
